6 6 4 k	During the summer of 1954, carters who transported construction material turpentine and colophony factory in Puppen (Pupy) (53 37 N/21 21 E) states ince the spring of 1954, a new airfield had been under construction new dorf (Marcinkovo) (53 42 N/20 40 E) and that they intended to part material deconstruction site because the pay was considerably higher that previously received. During the late summer of 1954, Germans and Polycoluntarily offered themselves for work at the field.	ted that, or Mertins- orial to than they
2 2 3 6 4 3 7 8 8	ring the summers of 1953 and 1954, air gunnery practice by twin-engine I aircraft with single rudder assembly, straight wings or slightly swept by 1ston engine under each wing was observed over Puppen for several hours successive days. The aircraft approached from the direction of Ortelsburduring the practices, flew on a line entending between the two towns of (Szczytno) (53 34 M/21 00 E) and Johannisburg (Pisz) (53 38 M/21 48 E). This taltitude was not very high so that the Polish nationality marking definitely observed. Several aircraft towing a sleeve target were aloft very large intervals while each sleeve target was continuously attacked rear by an individual twin-engine aircraft which gave several short and coursts of fire with one aircraft weapon. The rapidity and sound of fire corresponded with those of a machine gun.	ack and with son or 4 or 4 or 5 or 4 or 4 or 5 or 4 or 4
